LIEMPTY - Stationary Photo Coverage

HMMA-33591 - 4 December 1967. LILYRIC photos for identification by Station Tegucigalpa asset SWWATERFRONT-1. Agent recently met Soviet official in Mexico who is probably Aleksandr BROVKIN (201-185114), Third Secretary and KGB officer involved in LA Communist Party operations.

HMMA-30151, 20 September 1966

LIEMPTY/LIMITED/LILYRIC photo coverage was of value in late 1966 in assessing the motivation and integrity of LICOWL-1, access agent to Stanislaus Sergeyevich SLENIKOV (AEQUALITY). Soviet Embassy Administrative officer in September, 1966.

AEBURBLE

Photographic coverage of the target installations by LIEMPTY in early 1967 aided in the identification of an unknown Soviet intelligence officer who assisted in the training of a double agent being handled by the FBI.

AEGIMMICK

In early 1967 during the initial phases of a double agent case under FBI control, the LIEMPTY/LIMITED/LICALLA photographic surveillance activities furnished useful evidence. The LIEMPTY project verified the agent's contact with two Soviet officials, enabled their identification and established the fact of their KGB membership.

24 November 1967

MEMORANDUM FOR THE RECORD

SUBJECT: LIEMPTY Photo Surveillance Project Contribution
to Soviet Operations Program

1. This rather unique operation has unquestionably made a major contribution to the increasingly effective Sov Ops program of the Mexico Station. On the positive side its principal value lies in the identification of the Mexican and third-national contacts of the Soviets, from which we must select and develop the "access agents" so vital to our operations against the Soviet human target. LIEMPTY also provides us with a much clearer picture of inner relationships and activity patterns within the Soviet mission itself, which in turn facilitates effective targetting. The CE value of an LIEMPTY type project as a monitor of real and potential agent contacts of the Soviets, is of course obvious.

2. It is important to note that LIEMPTY is not, as might be the case in Stations of lesser overall capability, a simple case of photography (or observation) for the record. Rather it is an important facet of a concerted high priority effort to get at and recruit individual Soviets.
